Intended Use	Insurance

One electronically tested and presumed 18KT yellow and white gold lady's hand assembled round brilliant cut diamond wedding ring set with a bright polish finish. Condition is good. The 18kt (presumed) yellow gold cathedral engagement ring features one round brilliant cut diamond flanked by two smaller round brilliant cut diamonds set in shared prongs in a group platinum (presumed) head. The engagement ring is soldered between two electronically tested 18kt white gold bands, each containing five round brilliant cut diamonds set in shared prongs. The ring set measures about 27.3mm from front to back and 20.65mm from side to side; the width measures about 11.65mm in front and 6.8mm in back. Containing:

One prong set round brilliant cut diamond, measuring 6.40 - 6.38 x 3.96mm (depth est.), 2.00% GTCF approximate weight of 1.00ct. The diamond(s) were graded in the mounting so far as the mounting would permit inspection.

Clarity	SI-1
Color	F - H
Cut	Excellent

\$ 11,875.50

Two prong set round brilliant cut diamonds, measuring 5.05 - 5.00 x 3.12mm (depth est.), 4.00% GTCF approximate total weight of 2 Stones = 1.00ct. The diamond(s) were graded in the mounting so far as the mounting would permit inspection.

Clarity	SI-1
Color	F - H
Cut	Very Good

\$ 4,350.00
